Cojocaru Liviu

App Dev / Web Dev / Android Dev

About Me

Hello! My name is Cojocaru Liviu. I graduated from the Alecu Russo State University in Balti, I am passionate about programming, I have knowledge in the development of web applications in general front-end but also some back-end, I am adaptable and friendly, I always want to progress and learn new things.

In general, I am a responsible person, I always do things on time and I don't like to sit still.

ADVANCE

Personal Experience

Junior Java Developer at Unifun

Sept, 2023 - Nov, 2023

I gained experience as a Java developer, participated in several projects, developed functionality in Java, supported and developed several projects, in which I learned new things and developed myself professionally.

Web Developer at Halley Soft

Oct, 2022 - Dec, 2022

I did my university internship at the Halley Soft branch, where I fixed the problems in the text editor web application made in Html + js.

Mobile App Dev from courses at USARB

Jan, 2023 - May, 2023

At the mobile application development course, I created an application analogous to Instagram where the user registers, logs in and uploads photos via firebase.

Web Calculator at Network Course from courses at USARB

Sep, 2022 - Dec, 2022

In the network architecture, administration and security course, I created a computer that allows the calculation of the data proposed by the teacher, facilitating the testing process and minimizing the percentage of mistakes that may appear during the data calculation.

Automatic testing of mobile applications from the year thesis and the bachelor's thesis at USARB

Sep, 2021 - May, 2023

Upon finishing the university studies for the bachelor's thesis, I performed the automatic testing of the MyBalti mobile application with the help of 3 different testing applications.

Education

University studies from USARB

2020 - 2023

In the university I started to study programming more deeply and to better understand the process of writing code, I accumulated the experience and skills necessary to be a good programmer.

College from CEITI

2016 - 2020

In college I got to know the basic information about coding and programming languages, general notions and I started to accumulate experience in creating programs.

Gymnasium from High School

2007 - 2016

I acquired general knowledge in high school as well as the desire to become a programmer.
